SAMPLE SERVICE AGREEMENT

DEMO DOCUMENT ONLY: This fictional contract is created to test a student contract-analysis project. It is not a real agreement and is not legal advice.

1. Parties and Services

This Sample Service Agreement is between Example Client (the “Client”) and Demo Services Ltd. (the “Provider”). The Provider will deliver the services described in a written project order agreed by both parties.

2. Payment Terms

The Client must pay each undisputed invoice within 30 days of receipt. The parties will confirm the service fee in the applicable project order.

3. Automatic Renewal

This agreement automatically renews for successive periods of 12 months unless the Client gives written notice of non-renewal at least 90 days before the end of the current term.

4. Early Termination Fee

If the Client terminates the agreement before the end of a renewal term, the Provider may charge an early termination fee equal to six months of service charges, in addition to any unpaid invoices.

5. Termination by Provider

The Provider may suspend services immediately if it believes the Client has breached this agreement. The Provider is not required to give advance notice before suspension.

6. Liability

To the maximum extent permitted by applicable law, the Client is responsible for all losses, claims, costs, and damages connected with use of the services, regardless of the amount claimed.

7. Missing Details to Confirm

The parties have not entered an effective date, the Provider's notice address, or a named contact for formal notices in this sample document. These details should be confirmed before any real agreement is used.

End of sample contract. Findings from an automated tool are only prompts for human review; they do not establish that a clause is unlawful or unsafe.
